Good to know

Mute Modular is an adaptable room-in-room system that makes arranging flexible and comfortable workspaces easier than ever.

With its prefabricated modules and a wide selection of dedicated furniture, the system offers countless options for arrangement. Yet, to make designing easier and to inspire you, we created dozens fully equipped, ready-to-use units. They are all designed by experienced architects and based on actual floor plans to ensure optimal ergonomics. Still, you can customize every unit to fit your needs and vision.

Functions

Our selection of units represents 4 main office functions: Work, Meet, Lounge, and Support. Each unit can be placed separately or combined with others to create multifunctional work hubs. The patented click-in system makes assembly easy and quick.

Work

13 ready-to-use workstations for sitting and standing; personal spaces or hot desks

Meet

14 ready-to-use meeting spaces with wall-mounted shelves and cabinets

Lounge

9 configurations for chill out areas that prioritize comfort and relaxation

Support

7 complementary rooms, essential to office management, incl. cloakroom and copy point
